Human Factors Engineering in Health Informatics • 7 June 2007

Key-note presenter abstracts

Human Factors Engineering and Usability in Health Informatics: 15 Years of Experience	8
<i>Andre Kushniruk and Elizabeth Borycki</i>	
Organizational Obstacles to Usability in Health-IT Development and Acquisition	10
<i>Dag Svanes</i>	
Representing the Objects of Interest (OOI) in Health Informatics Systems	11
<i>Niels Boye</i>	

Submitted papers abstracts

Using multi-perspective Methodologies to study User Interactions with the Front-End of a Guideline-Based Decision-Support System for Diabetic-Foot Care.....	12
<i>Mor Peleg, Aviv Shachak, Dongwen Wang, Hana Sender, Shiri Shenhav and Eddy Karnieli</i>	
How Standards will degrade the Concept of Medical Science.....	13
<i>Lars Botin</i>	
Human Computer Interaction between Clinicians and Clinical Terminologies: Why clinical Terminologies need Help!	14
<i>Sebastian Garde, Ignaz FA Reicht, Evelyn JS Hoveng</i>	
UMEHRS: A User-Centered Methodology for the Specification of an EHR.....	15
<i>Heloisa L. Borges, Emerson C. Paraiso, Andreia Malucelli, Cláudia M. C. Moro</i>	
Observational Study of Clinicians' Information Needs and Information Review Behavior in Daily Assessment of the Patient Care Plan.	16
<i>Linda W.P. Peute, Jens Lauber, Piet Bakker, Monique W.M. Jaspers</i>	
Practical Experiences related to Specification and Evaluation of Usability for a Laboratory Information System	17
<i>Jytte Brender, Peter McNair</i>	

Submitted short papers

Software Ergonomy of a Clinical Information System: A Heuristic Evaluation Study.....	18
<i>Elske Ammenwerth, Christof Machan, Hans-Peter Spötl</i>	
Effects-driven IT Development in the Health-Care Sector: The Importance of Implementation	20
<i>Maren Fich Granlien</i>	
EKGAR: Interactive ECG-Learning with Augmented Reality	22
<i>Henrik Hedegaard, Mads R. Dahl, Kaj Grønbæk</i>	

Contents

Consequence of including Final Users in a Usability Evaluation: A Case Study with a CPOE	24
<i>Nicolas Leroy, Marie-Catherine Beuscart</i>	
How does two Communities of Practice in the same Clinic use CPOE?	26
<i>Henriette Mabeck</i>	
Organizational Development after Implementation of RIS/PACS at the Radiology Department at the Hospital of Aalborg	28
<i>Karsten Ulrik Niss</i>	
Hospital-Wide Evaluation of the Usability of an Electronic Medical Record System	30
<i>Linda W. Peute, P. J. M. Bakker, Monique W. M. Jaspers</i>	
A Cognitive Task Analysis of Primary Care Physicians' Use of Electronic Medical Records: Implications for Design	32
<i>Aviv Shachak, Michal Hadas Dayagi, Amitai Ziv, Shmuel Reis</i>	
Evaluation Framework for Personal Health Services: Assessment of a Wellness Index	34
<i>Mariana V. Simons and Georgio Mosis</i>	
Synaps – a Modular Online Personal Digital Assistant System for Hospitals.....	36
<i>Claes Strandegård, Olof Torgersson, Bengt Persson</i>	
Different Kinds of Overview in Nurses' Use of Data for coordinating Patient Care and Continuity of Nursing Duties at Work Shifts	38
<i>Helle S. Wentzer, Linda M Hansen, Julia Dolva, Gabriele Oehninger-Storvoll</i>	

PDA Workshop • 8 June 2007

PDA's for Learning Support at the Hospital Ward – Potentials and Challenges	42
<i>Anne Marie Kanstrup, Niels Boye, Pernille Bertelsen, Ellen Christiansen, Christian Nøhr</i>	
Experiences with PDA Use at Danish Hospitals.....	44
<i>Frederik Frost Nielsen</i>	
Use of Role play to facilitate User-Involvement in Design of Mobile Hospital Systems	45
<i>Gry Seland</i>	
What are the Business Perspectives of PDAs	46
<i>Karin Glindtvad</i>	
Collaboration to ensure Usability.....	47
<i>Peter Lundkvist</i>	
How to achieve User Acceptance for New Clinical Workflows with Use of a PDA and Medicine packed in Unit Doses Bags	48
<i>Karin Boisen</i>	
Clinical Nomads - Why the Desktop Metaphor will never prevail in Clinical Work	49
<i>Jacob E. Bardram</i>
